# Ayo Berhitung

Hitung dan tulis jumlahnya pada kotak dibawah

A visual addition problem showing three groups of five boxes each. The first group contains three cat icons. The second group contains two cat icons. A plus sign (+) is between the first and second groups, and an equals sign (=) is after the second group. The result is a single large cat icon.

The diagram illustrates the concept of addition. It features two groups of five boxes each, separated by a plus sign (+). The first group contains five boxes, each containing a cartoon elephant. The second group also contains five boxes, but only the first three contain elephants; the last two are empty. To the right of these groups is an equals sign (=). Following the equals sign is a single box containing a large, detailed cartoon elephant. Below the main diagram are two large, empty rectangular boxes, likely intended for writing the sum or related facts.
